

# SPA LINE

## Global body treatment

Body skin, like facial skin, needs special attention and specific treatments to keep it looking good. Unfortunately, this care is often underestimated, and in the worst cases, left forgotten. As it is never too late, NATURA BISSÉ offers with an integral line of concentrated SPA body creams and lotions that incorporate an extensive range of active principles that reduce, firm, repair, soften and hydrate; the perfect complement to intensive sessions carried out in the treatment room and the perfect treatment to help get your neglected skin back into shape.

### For:

- All types.

### Beneficial Effects:

- Nourishes, moisturises and boosts cellular oxygenation.
- Strengthens the skin.
- Depolymerises fibrous nodules.
- Dissolves excess adipose nodules and promotes drainage of toxins.
- Reduces fluid retention.
- Soothes and relaxes.
- Calms irritation and pain.

# BODY SLIM

## Slimming Micro Complex

**Presentation:** 150 ml. Pump

**Skin type:** All skin types

**Texture:** Gel

**Application:** Morning / Night

### Beneficial Effects:

- Extraordinary slimming effect on area to be treated
- Lipolytic and lipogenic effect: stimulates the removal of fat deposits as well as drainage
- Hematodynamic effect: strengthens capillaries
- Draining effect: drains toxic substances
- Decongestant and refreshing

### Main ingredients:

- **Concentrated Brown Algae Extract:** (Fucus Vesiculosus): A concentration 10 times higher than that normally used in cosmetics. The iodine in the algae contains extraordinary Lipolytic properties. Provides a dramatic reduction of fat deposits and accumulated body volume.
- **Menthol:** Refreshes and decongests.

### Application:

Gently massage daily on area to be treated. Only a small amount of product is necessary due to its high concentration of active ingredients.

# BODY CONTOUR

## Anti-cellulite Micro-Complex

**Presentation:** 150 ml. Pump

**Skin type:** All skin types

**Texture:** Gel-cream

**Application:** Morning /or Night

### Beneficial Effects:

- **Lipolytic Effects:** Innovative slimming complex that helps dissolve and eliminate fat.
- Diminishes the look of "orange peel" skin; reduces the appearance of quilted skin.
- **Firming effect:** regenerates the deepest layers of the skin, thereby restoring firmness.
- **Draining effect:** improves circulation and enhances drainage.

### Main Ingredients:

- **Silanol-Caffeine and Carnitine Complex:** reduces cellulite.
- **Natural Free Form Collagen and Elastin Amino Acids:** Increase elasticity and firmness.
- Phyto-therapeutic extracts of **Butchersbroom, Ivy and Horse Chestnut** combined with an extract of **Green Algae** (Enteromorpha Compressa) generate a powerful anti-edematous process that diminishes excessive permeability of the capillaries, which improves micro-circulation and markedly boosts drainage of accumulated liquids.
- **Ruscus Extract:** reduces excess capillary permeability and improves micro-circulation.
- **Mango and Shea Butters:** Nourish and soften.

### Application:

Apply daily with soft, circular motions on areas to be treated until completely absorbed. Only a small amount of product is necessary due to its high concentration of active ingredients. Its rich, oil-free texture absorbs instantly, allowing you to get dressed shortly after applying the cream.

# BODY LIFT

## Breast and Body firming Micro-Complex

**Presentation:** 150 ml. Pump

**Skin type:** All skin types (for body)

**Texture:** Gel-cream

**Application:** Morning /or Night

### Beneficial Effects:

- Regenerating and nourishing effect: provides micro-nutrients and cellular renewal properties.
- Enzymatic protection: inhibits proteases that destroy collagen and elastin fibers.
- Anti-glycation protection: protects the skin's fibers and prevents fragmentation.
- Increases and improves the skin's density.
- Ideal for periods of weight fluctuation

### Active Ingredients:

- **Biodermastyl:** firming concentrate that stimulates the formation of skin fibers.
- **Natural collagen and elastin amino acids in their free form** improve skin tone, increase elasticity and diminish the quilted look of cellulite.
- **Shea Butter:** hydrates and nourishes.
- **Organic silicon** protects the dermal fibers from the glycation process, preventing loss of elasticity and recovering skin density.

### Application:

Massage daily on flaccid areas, including the breasts. It contains a high concentration of active ingredients, so only a small amount of product is necessary to obtain the desired results. Its rich, oil-free texture absorbs instantly, allowing you to get dressed shortly after applying the cream.

# DERMAREPAIR

## Stretch mark prevention and repair cream

**Presentation:** 500 ml. Jar

**Skin type:** All skin types (for body)

**Texture:** Creamy

**Application:** Morning / Night

### Beneficial effects:

- Prevents the appearance of new stretch marks and diminishes existing ones.
- Improves elasticity and firms skin.
- Regenerates the deeper layers of the skin.
- Hydrates and adds suppleness to skin.
- Softens and improves skin texture.
- Ideal for preventing stretch marks during pregnancy.
- Ideal for periods of weight fluctuation such as puberty.

### Active ingredients:

- **Hydrolyzed Elastin:** Increase firmness and elasticity.
- **Amaranth Oil:** Regenerating and nourishing effect.
- **Gotu Kola:** Healing and renewing properties.
- **Hydrolyzed Pumpkin:** exceptional regenerating properties that prevent the destruction of Collagen and Elastin fibers.

### Application:

Apply daily on areas where stretch marks are likely to appear or where they already exist. Massage gently with circular strokes, concentrating on stretch marks, until completely absorbed.

# HAND SILK CREAM SPF 15

## Hand cream

**Presentation:** 75 ml. Tube

**Skin type:** All skin types

**Texture:** Cream

**Application:** Morning and/or Night

### Beneficial Effects:

- Intensive hydration for hands
- Protects hands against environmental elements (cold, wind, sun, etc)
- Keeps hands soft and supple
- Provides sun protection (SPF 15)
- Prevents the appearance of dark spots on skin
- Absorbs quickly without leaving a greasy film on hands
- Light Magnolia fragrance
- Water-resistant

### Main Ingredients:

- Natural Silk (Sericin & Fibroin) Amino Acids in their Free Form:  
Make skin firm and supple.

### Application:

Apply on hands 20-30 minutes before sun exposure. Massage until completely absorbed. HAND SILK may be applied several times a day, especially on dry hands.

# FITNESS GEL

## Cryogenic Body Gel

**Presentation:** 200 ml. Tube

**Texture:** Gel

**Skin type:** All types

**Application:** Morning / Night

### Beneficial Effects:

- Contains exceptionally high cryogenic properties. It induces hypothermia
- Helps burn fat; reduces volume and firms tissue
- Firming, anti-cellulite and slimming properties
- Excellent muscle relaxant for fatigued legs
- Ideal treatment for cold bandages

### Main ingredients:

- Eucalyptus and Menthol: Exceptionally refreshing and soothing.

### Application:

Apply over area to be treated; do not wipe off. May be combined with NATURA BISSÉ's slimming, anti-cellulite or firming treatments, in which case FITNESS GEL should be applied after the treatment cream. To enhance its cryogenic effect (cold effect) wrap the area to be treated with NATURA BISSÉ's OSMOTIC ROLL or with bandages previously moistened with water. Leave wrap on for 45 minutes before removing.
